ERT# _____

CONDITIONS OF APPLICATION FOR WATER AND SEWER SERVICE

1. The signed Application for Water and Sewer Service shall constitute a contract between the parties upon acceptance by the City and shall remain in force until terminated under the policies of the City.
2. Water and Sewer Service from the City will be purchased at the rates set by the City Council as reflected in the City's current fee schedule. The property owner shall pay a monthly bill based upon the number of gallons processed. The property owner shall be liable to pay for the service to their premises, and the service is furnished to the premises by the City only upon the condition that the owner of the premises is liable therefore to the City.
3. All bills and notices shall be mailed or delivered to the address where service is provided. If non-resident owners or agents desire personal notice sent to a different address, they shall note that on the Water and Sewer Service Application. Any change or error in address shall be promptly reported to the City.
4. The property owner agrees to comply with the provisions of all applicable City Ordinances, including *Chapter 4: Public Works*, which controls water and sewer service. Copies of city ordinances are available to be downloaded from the City's web site at <http://pinecity.govoffice.com> or will be provided upon request.
5. No person, except an authorized City employee or its agent, shall turn on or off any water supply at the curb stop box.
6. The City will not be liable for damage incurred on the applicant's premises due to system failure caused by (a) an act of God; (b) riot, revolution, or other civil disorders; or (c) negligent acts or omissions or commissions of third parties not attributable to the City.
7. The applicant hereby authorizes the City or its agents the right to enter on his/her premises to construct and maintain the water and sewer lines serving his/her premises up to the meter. This shall include the right to trim trees and spray herbicides in the line rights of way, and to maintain clearances in accordance with Minnesota State Standards. This shall also include the right to read City meters and to inspect all buildings and structures to confirm compliance with provisions in all City ordinances, including surface runoff or groundwater connections. Failure to allow City employees to read the meter on a monthly basis shall result in sanctions under City ordinance.
